

My Github Repo URL

W01-P1:create github repo -- 1112-2A-db-demo-id, git push w01 files

The image is a composite of four screenshots illustrating the process of creating a GitHub repository and pushing local files.

Top Left (VS Code Terminal): Shows the execution of `git push` command. The output indicates successful push to the remote repository. The terminal text is as follows:

```
create mode 100644 routes/users.js
create mode 100644 views/error.ejs
create mode 100644 views/index.ejs

User@201-02 MINGW64 /d/2A/1112-2A-db-demo-408410388 (main)
$ git push

Top Right (GitHub Web Interface): Shows the repository page for `LeoYau2 / 1112-2A-db-demo-408410388`. The "w01 first commit" is highlighted, showing it was committed 4 minutes ago.

Bottom Left (VS Code Explorer): Shows the file explorer with the project structure. The `w01` folder is highlighted, containing `w01-p1.png` and `w02`.

Bottom Right (GitHub Web Interface): Shows the repository page with the file list. The files are listed with their commit times:

File	Commit Time
bin	14 minutes ago
public/stylesheets	14 minutes ago
routes	14 minutes ago
views	14 minutes ago
.gitignore	14 minutes ago
README.md	50 minutes ago
app.js	14 minutes ago
package-lock.json	14 minutes ago
package.json	14 minutes ago

W01-P2: copy crown themes over to public folder, npm run dev, show localhost:3000
